

Job Description –AI/ML Intern (Campus Drive)

About the Company

Zepcruit is an AI-powered recruitment platform that helps companies hire faster and smarter through automated interviews, CV screening, and candidate evaluation tools.

Role Overview

As an AI/ML Intern at Zepcruit, students will gain hands-on experience working on real-world Artificial Intelligence and Machine Learning projects. Interns will contribute to the development of intelligent systems that enhance recruitment automation, candidate assessment, and hiring efficiency.

Key Responsibilities

- Assist in developing, training, and evaluating machine learning models
- Work with datasets for data preprocessing, analysis, and feature engineering
- Support AI-powered candidate screening and ranking initiatives
- Conduct research on emerging AI and Machine Learning technologies
- Collaborate with development teams to integrate AI solutions into products
- Monitor model performance and contribute to continuous improvements

Requirements

- Strong problem-solving ability
- Proactive attitude and willingness to learn
- Python
- Understanding of Machine Learning fundamentals
- Familiarity with libraries such as NumPy, Pandas, Scikit-learn, TensorFlow, or PyTorch
- Basic knowledge of data analysis and model evaluation techniques.

What We Offer

- Competitive Stipend + incentives
- PPO opportunity based on performance
- Opportunity to work directly with leadership team
- Fast-paced learning and career growth environment
